

SYLVANIA

MINI-LYNX AMBIENCE

The energy saving lamp has never looked so natural

Saves energy, looks like an ordinary light bulb

The new Mini-Lynx Ambience lamp has all the economical, energy-saving qualities of the Sylvania Mini-Lynx range, but with one important difference: it looks just like an ordinary light bulb. The Mini-Lynx Ambience consumes 75% less energy and has a much longer average life than ordinary bulbs, an amazing

MINI-LYNX AMBIENCE.

THE NATURAL SELECTION.

5 years under typical domestic use, which means it will actually save you money over its lifetime. What's more the Ambience will fit anywhere an ordinary light bulb can and looks just as much at home in a living-room table lamp as it does in an office stairwell. The Mini-Lynx Ambience's user-friendly design is perfectly complemented by the softness of its light. There is a choice of standard shape or candle, and there are even pastel shades of apricot and rose available. So things are looking better all round when it comes to energy saving.

Sylvania. A source of inspiration.
