Agricultural

The ideal lighting solution for *Special incandescent lamps*

Sylvania has developed a special series of lamps mainly for use in agriculture and horticulture. The number of applications outside these sectors is however just as diverse.

Insecta

By using yellow light, instead of white sources of equal luminous intensity, the number of insects attracted towards the light is considerably reduced. Although the "Insecta" lamp was originally developed for the horticultural sector, it's now also used for commercial and domestic applications, such as outdoor lighting at entrances, on terraces, in camping grounds, etc...

Gro-Lux

The Gro-lux reflector lamps stimulate plant growth by only generating that light which plants need to grow. These lamps are not only used in greenhouses but are also very useful in winter gardens, botanical gardens and in terraria.

Infra Red

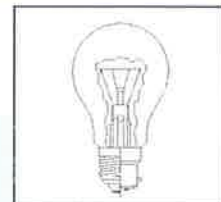

The infra red reflectors ensure a warm and pleasant atmosphere and are used for heating, drying, cooking, hardening... Besides this, they are used on cattle farms, in zoos and in pet shops, and also in personal care, hair-dressing salons, beauty centres, hospitals, even at home in the bathroom.

All lamps comply with the relevant requirements of standards IEC 64 and IEC 432.

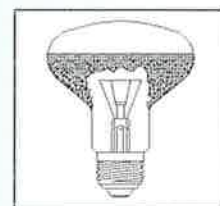

GLS 60MM - INSECTA

Code	Watt	Volt	Cap	Bulb	Diameter (mm)	Max. L (mm)	Avg Life (h)	Rated Lumens	Pack Qty
10818	60	230	E27	Opalised	60	104	2000	-	2x15
10817	60	230	B22	Opalised	60	103	2000	-	2x15

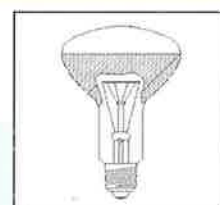

REFLECTOR R80/R95 - GROLUX

Code	Watt	Volt	Cap	Bulb	Diameter (mm)	Max. L (mm)	Avg Life (h)	Rated Lumens	Pack Qty
15633	60	240	E27	Blue enamelled	80	103	2000	-	100
15632	75	240	E27	Blue enamelled	80	103	2000	-	100
15631	75	240	E27	Blue enamelled	95	132	2000	-	20

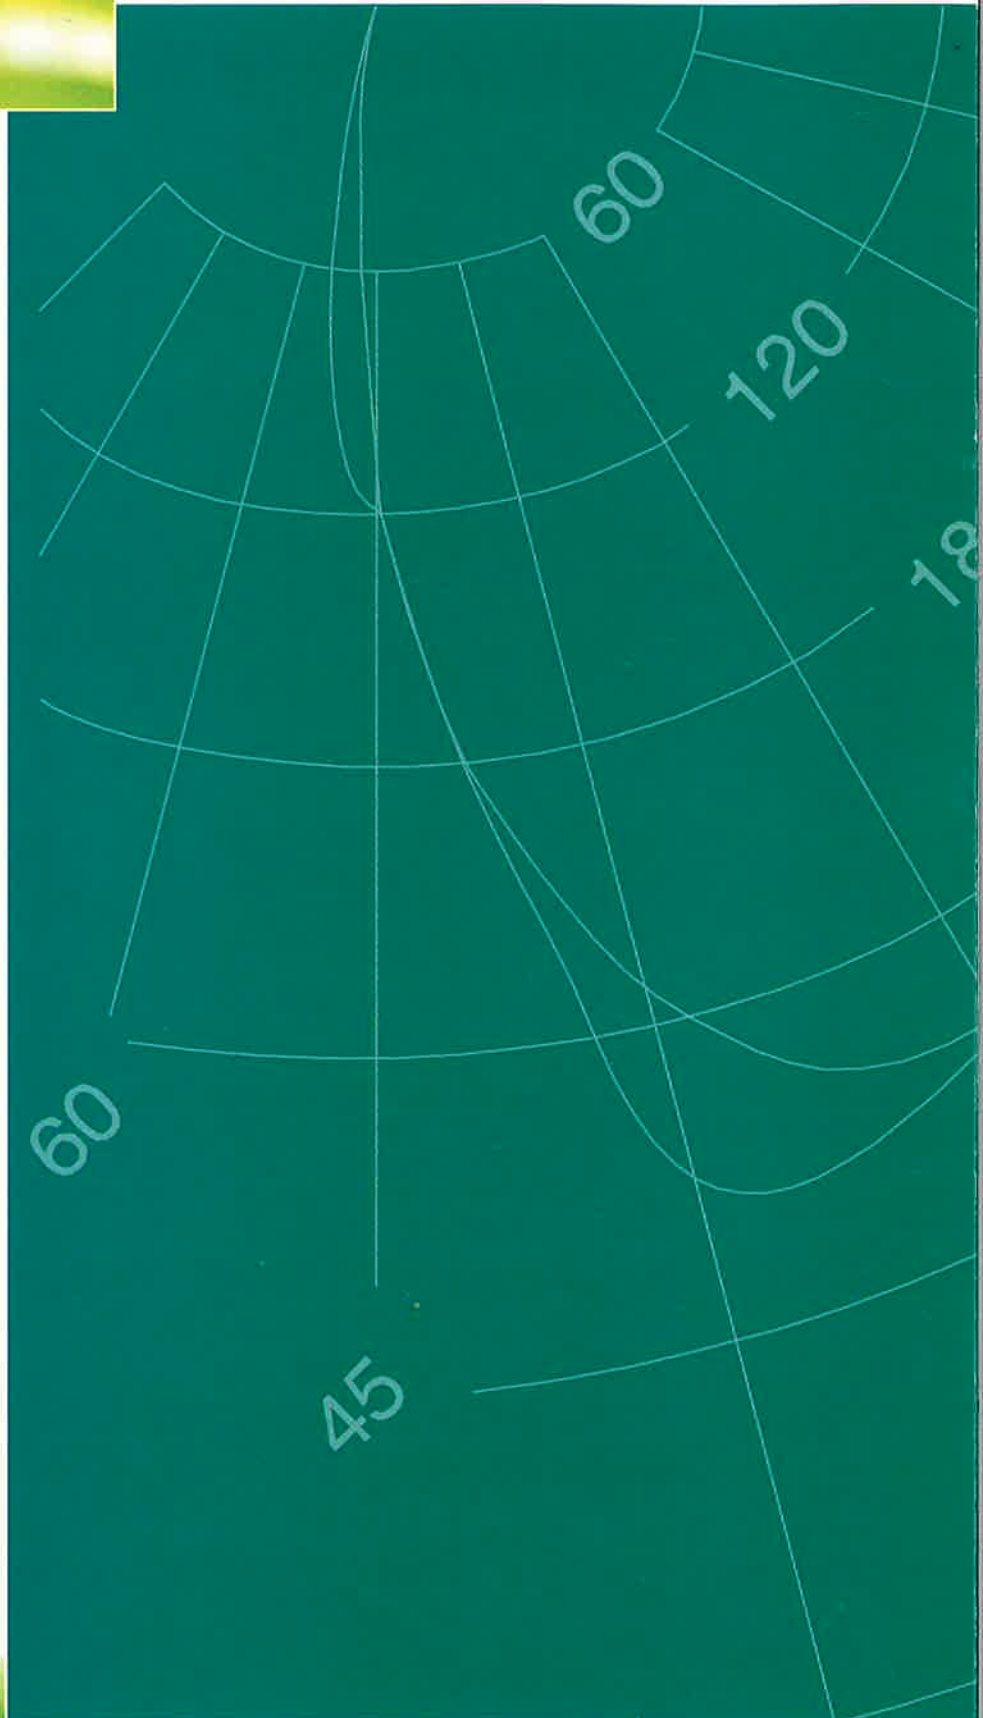

REFLECTOR R80 - INFRA-RED

Code	Watt	Volt	Cap	Bulb	Diameter (mm)	Max. L (mm)	Avg Life (h)	Rated Lumens	Pack Qty
(1)	100	240	E27	I.R.	80	110	5000	-	100
(1)	100	240	B22	I.R.	80	109	5000	-	100

(1) On demand
