FROM THE
YELLOW**

SYLVANIA

TO THE WHITE

THE NEW HALOGEN DLX FROM SYLVANIA

THE NATURAL ALTERNATIVE

ORDINARY GLS LAMP

Now you can enjoy a purer, cleaner, whiter light, without a trace of yellow, with new Halogen DLX. In fact, it's so natural it's almost like daylight.

Halogen DLX brings out the best in everything – enhancing colours, fabrics, carpets, paintwork, pictures. All benefit from the exceptional quality of light. All appear more attractive to the eye.

Halogen DLX is also the ideal light for task and detail work.

A Halogen DLX lamp can be handled just like an ordinary GLS lamp and is about the same size, so you can use it as a direct replacement in most applications.

And, just like ordinary lighting, it's dimmable.

HIGHER EFFICIENCY

A Halogen DLX also gives out more light. In fact it's so efficient that you can expect up to 20% more light than from ordinary GLS lamps of the same wattage.

TWICE THE LIFE

Nor will you have the bother of replacing a Halogen DLX as often as an ordinary GLS. It lasts twice as long, some 2000 hours.

What's more, its brightness is maintained over the entire lamp life.

HALOGEN DLX LAMP

HALOGEN DLX

THE WHITE CHOICE OF LIGHTING

Halogen DLX is currently available with an ES base, two envelope shapes, clear and satin finish, and 75W and 100W options.

- Top quality halogen light.
- 20% more efficient.
- Twice the life.
- Direct replacement for most applications.
- Safe for use in open fixtures.
- Dimmable.
