

# SYLVANIA

**COOLFIT**

**The coolest halogen for ceilings everywhere**

Extensive tests have shown that Coolfit lamps with UV Stop deliver a massive reduction of heat behind the lamp. This means the fixture doesn't get damaged, the

## **COOLFIT. LESS HEAT ABOVE AND CRISP LIGHT BELOW.**

ceiling stays clean and unmarked, and the transformer and wiring are protected. The temperature an arm's length below the lamp is the same as with traditional dichroic spots. And the quality of light remains constant throughout the 5000 hour life of the lamp, thanks to a special non-degrading reflective coating. New Coolfit halogen. Just remember it's cool.

**Sylvania. A source of inspiration.**

THE REDUCTION IN HEAT IN THE AREA ABOVE AND SURROUNDING THE LAMP PROTECTS WIRING AND TRANSFORMERS AS WELL AS CEILINGS.

LESS HEAT GENERATED ABOVE THE LAMP HELPS PROTECT THE SENSITIVE PARTS OF FIXTURES OLD AND NEW.

BLACK RINGS AND CRACKED PANELS ARE A THING OF THE PAST AND CEILINGS REMAIN PRISTINE.
