General

GE Lighting TUNGSRAM offers one of Europe's largest ranges of vehicle lamps. Their superior quality is achieved by extensive use of the latest research and development with highly qualified technical personnel working in modern laboratories.

Our constant quality aim is Zero Defect. This goal involves designing quality into vehicle lamps which leads to suitability, quality and reliability as high as modern technology can make them.

Our lamps are manufactured to strict international standards and appropriately marked in conformance with E.C.E. regulations or with other Standards (DIN, ANSI).

Life is specified considering DIN 72601 and the I.E.C. Standard, respectively.

Rated Values refer to the values marked on the lamp.

Design Values refer to the values found at the test voltage in conformance with E.C.E. regulations and DIN Standard.
